(Disclaimer, the attributes of the classes displayed herein may not be complete and the methods listed most certainly are not)

## Symbols and colors used herein:

 Name ( <i>abbreviation</i> )	- Class	 Restrict = val	- Restrictions
 name	- Base class (attributes inherited from)		- Extension (uncolored)
 .name( <i>type class</i> )	- scalar attribute	 method( <i>arg1;type class, )</i> <i>Special notes</i>	- method
 .name	- list attribute	 +, ==, ...	- operators
 .name <i>keys description</i>	- dictionary attribute		
 opt 1 opt 2 opt 3 ...	- list of available options		
	- mandatory attribute		
	- fixed attribute		
	- optional attribute		
	- mutually inclusive attribute		
	- mutually exclusive attribute
